Dagestan Tur

Luglio - Ottobre

The area of Azero Caucasus is inhabited by approximately 12.000 Dagestan Tur, the largest of all subspecies of Caucasus Tur. The same area is inhabited also by the Caucasian Chamois.

The hunt for Tur is done from 2.500 to 4.000 m of altitude. Hunting is started from the hunting house and the hunters stay in the mountains sleeping in sleeping bags for 2/3 days. Stalking allows the hunter to choose excellent trophies. This is a hard hunt and

requires good physical condition.
