Savannah Safari

December - May

The concession is mostly grassy savannah, with highlands, hills and various water courses. The vastness of the territory favours the encounter with various animal species like: Elephant, Buffalo, Roan, Giant Eland, Lions, Hartebeest, Waterbuck, Hippos, Bushbuck, many species of small antelopes and different species of birds. All this contributes to the fact that this area, still not fully explored, is of sure interest to the hunter. There are four

hunting camps in the savannah and they can easily be reached with comfortable 4x4 from Garoua or Ngaundere. The camps offer comfortable lodging in double rooms in bungalows with sleeping nets and services.
