Hunting Worldwide Since 1986

- ENGLAND -

Deer

September - December

England offers really longed-for, exotic trophies and excellent autochthonous population of deer and roe deer. The hunting areas are all situated in the central England, which is easily reachable from London airports, at which our professional guides will expect for your arrival. Lodging is organized in little hotels located in the vicinity of the hunting zone, and will be paid apart according to one's choice.

Because of the very complicated rifle import procedure, the professional guide will lend you rifles during the hunt. You are only required to pay for the ammunition used.

Rates:

Daily hunting organization (minimum 4 days)

£ 470
