### Chamois

September 1 – December 31

In Serbia there are two good areas for the chamois hunt. The first is in the canyons of the Danube river, in Djerdap national park, and the other is in the canyons of the river Zlot. Both areas are very good for this type of hunt, since there is the possibility to reach the tops by car and proceed the hunt downward. Lodging will be provided in small hunting houses or in local hotel close to the hunting ground. Both areas are at about 200km from

Belgrade and they can be reached after a three hour drive from the city.
