Wild Boar

June - August

We organize waiting wild boar hunts in the low areas of Tajikistan, a couple of hours driving from the capital Dushanbe. In this area, inhabited mainly by Muslim population, wild boars are not hunted and there is the possibility of finding very large animals, with trophies up to 30 cm!!! The hunt is done by waiting and it gives excellent results in the months between June and August, under fruit trees. Basically under every tree there is the possibility of getting a large male by

waiting at night. We recommend that the hunters bring a light that can be mounted on the rifle and to come in nights of full moon.

Lodging is provided in houses of the local guides without services.

Rates:

7/5 hunting days, minimum 2 hunters € 1.300

Wild boar without size limit € 780

Rates Include:

Transport from Dushanbe airport to the hunting area and back, assistance of professional guides, use of a 4x4 vehicle during the hunt, lodging in the houses of local guides without services, first preparation of the trophies.

Rates Don't Include:

International air fares, hotel before and after the hunt (one day has to be spent in Dushanbe for registration of the hunters), visas, weapon import permits, veterinary certificates, tips (we recommend USD 200 per guide), drinks, rifle rent (USD 200 per hunt including cartridges) and gratuities.
